Wood Species

Maple: a light colored hardwood, Maple has a close, fine, uniform texture that is generally straight-grained. This is a very durable hardwood and will take any color stain or paint well.

Oak: has a reddish cast and is a very hard wood with a mostly straight open grain. This is an extremely durable, great wear-resistance hardwood that stains well to a beautiful finish.

Cherry: has beautiful reddish brown to deep red color with lighter streaks of sapwood. Cherry has a fine uniform, straight grain, satiny smooth texture, the beauty of this hardwood and accompanying even grain has been a favorite choice of customers for centuries.

NOTE: Cabinet Base Prices on the following pages in this guide are based on Maple cabinets. Oak and Cherry prices are equal to Maple.

Creating a Kitchen

✧ 1. **Select your cabinet grade.** Choose from Premium, Deluxe or Select grades for more style and quality choices.

Premium icon

Deluxe icon

Select icon

✧ 2. **Choose your style.** Select the door and drawer style you prefer for the look you want. Options include: Square, Arch, and Cathedral in Flat Panel, Raised Panel and Beadboard styles. *Door styles start on Page 10*

✧ 3. **Layout your kitchen.** Make your space beautiful and functional with base, wall, pantry, corner and utility cabinets. Plan the best arrangement for your lifestyle.

Kitchen tips start on Page 6.

✧ 4. **Select an island.** Solid wood kitchen islands come in six designer styles for a welcome addition to your kitchen for work space, storage and seating.

See islands on pages 104 - 109.

✧ 5. **Add glass.** Enhance your cabinets with glass to show off your cherished objects.

✧ 6. **Add space saving storage and accessories.** Convenient accessories make your working kitchen even better.

Details on Page 76

✧ 7. **Select a wood species.** See the wood species descriptions below and choose from Pine, Maple, Oak or Cherry.

✧ 8. **Select the finish.** Warm stains, paints and specialty finishes add to the personality of your kitchen. Choose from our selection of 45 finishes including stain, paint & glazes or get your cabinets unfinished to customize yourself.

Finish details on Page 00

✧ 9. **Complete your Space with fine Woodcraft furniture.** Choose from our extensive line of Living & Dining, Entertainment, Wall Units, Office and Bedroom collections. Ask your authorized Woodcraft dealer to view our full color catalog with over 8000 items or go to www.woodcraftindustries.com.

Cabinet Grades

Woodcraft Premium: Quality furniture board cabinets. Solid wood face frames and doors.

Woodcraft Deluxe: Quality furniture board cabinets with plywood sides. Solid wood face frames and doors.

Woodcraft Select: Our highest quality all plywood cabinets. Solid wood face frames and doors.

The ultimate source for quality, American made, semi-custom cabinets and furniture.

Pride and experience go into every Woodcraft cabinet.

Since 1984, Woodcraft Industries has produced an impressive selection of semi-custom Kitchen & Bath Cabinetry and a full line of “furniture for every room in the home and office.”

Woodcraft’s skilled craftsmen and women build each cabinet to your specifications with an absolute devotion to quality. Our central Pennsylvania manufacturing facility uses state-of-the-art technology to produce cabinets that will stand the test of time.

Woodcraft cabinets are available in Woodcraft Standard, Woodcraft Premium, and Woodcraft Select grades, an impressive 26 finishes and 13 door & drawer styles. Numerous accessories and the ability to modify cabinet sizes create unlimited possibilities for your kitchen and bathrooms.

All Woodcraft Kitchen and Bath cabinets are covered by our Lifetime Limited Warranty.

WOODCRAFT
is a proud member of:

Manufactured in the U.S.A.
State College, PA

Environmentally Responsible

- Our real wood construction reveals the classic beauty of responsibly harvested premium grade pine, maple, oak and cherry. Woodcraft is committed to using suppliers that share our values. Our vendors are certified by the Forest Stewardship Council (FSC) for their controlled harvesting of wood products from managed forests, adhering to strict environmental standards in accordance with the principles and criteria of the FSC. The wood waste we produce is minimal as excess wood chips and sawdust are utilized by local farms as animal bedding. Woodcraft Select plywood cabinets are CARB phase 2 compliant utilizing formaldehyde free plywood and glue.
- Our state of the art finishing system utilizes a high solid conversion varnish that emits very low voc's. Because of the finishes high build properties, a high quality finish is produced with fewer steps in the finishing process.
- Woodcraft's goal is to be a resource and partner with you in making our environment a safe and healthy place to live. The longevity and durability of our furniture guarantees it will last for generations to come.
- Woodcraft Select grade cabinets and Woodcraft real wood furniture is made from formaldehyde free plywood and is CARB Phase II compliant.

Limited Lifetime Warranty

Woodcraft Industries warrants to the original consumer purchaser that our cabinetry will be free from defects in material and workmanship under normal use for the lifetime of the original purchaser. This warranty only applies to Woodcraft Kitchen and Bath cabinets or related products purchased through a current authorized Woodcraft dealer. This warranty is in lieu of all other implied or expressed warranties.

Woodcraft Industries may elect to repair or replace any defective Woodcraft product covered by our warranty. Our warranty does not cover defects caused by misuse, abuse, negligence, alterations, environmental conditions, exposure to extremes in temperature or humidity, improper installation, storage and handling, shipping damage caused by the freight company; nor any labor expenses or incidental or consequential damages. Our warranty does not cover natural variations in wood including distinctive grain patterns, variations in color and variations in texture. This warranty does not apply to unfinished products.

Woodcraft Industries may change design, specifications and materials as conditions require and improvements are developed, but we have no obligation to incorporate such changes into products we previously manufactured. Woodcraft reserves the right to make material and specification changes to Woodcraft products without prior notification. Material and specification changes are not valid reasons for a warranty claim.

To file a warranty claim, first contact your current authorized Woodcraft kitchen and bath cabinet dealer who will arrange for inspection of the cabinet. An original dated sales receipt as proof of purchase is required to obtain benefits from this warranty. Only written warranty claims will be accepted.

Kitchen Layout Guides

Make your Kitchen Work for You

Food Storage:

Refrigerator
Freezer
Pantry

It is recommend that your food storage is as close to the kitchen entry as possible for efficient unpacking and less distance to lug heavy groceries.

Cooking:

Range
Ovens
Cookware

Your cooking components should be near each other; by having your cookware close at hand to your range & oven you save time in meal prep.

Clean Up:

Sink
Dishwasher
Dish Storage

Place your dishwasher near your sink and disposal, then dirty dishes can be tackled easily.

Some Common Kitchen Layouts

U-shaped

If you could use more space consider a U-shape. It is perfect for one or more cooks.

Galley

A galley is an efficient workspace for a single cook.

L-shaped

A definite advantage of the L-shape is generous counter space and people can come in and out without entering your work area.

G-shaped

A modification of the U-shape, the G adds more cabinets and a potential fourth wall.

Single Wall

A single wall layout is a necessity in smaller homes and apartments where space is limited.

- Make a sketch of your room; mark all doors, windows, electrical outlets and permanent fixtures.
- Measure in inches not feet.
- Measure openings: doors and windows from the outside trim edge.
- Indicate which way the doors swing. 
- Once you have accurate measurements transfer it to grid paper.

Walls

1. Measure the full length of the wall from the left corner out.
2. Measure segments: From the left measure to the outer edge of the first opening (*door or window*).
3. Measure across the opening from outside trim edge to outside trim edge.
4. Measure from the outside trim edge of that opening to the next opening or the end of the wall.

Windows:

1. Measure from floor to window sill.
2. Measure from window sill to top of window.
3. Measure from top of the window to ceiling
4. Measure the width of the window.

Details:

1. Make a list of all kitchen appliances
2. Measure the width, height and depth of all relevant appliances.
3. Measure construction details such as bulkheads, crown mouldings etc.

Door Hinges & Door Overlays

Standard Overlay

Full Overlay

Note: Cabinet face frame rails and stiles are 1 1/2" wide.

Cope and stick construction: the joints are machined to interlock with a tongue and groove, glued, clamped and pin nailed during assembly.

Mitered door construction: has a 45 degree angle joint that is glued, clamped and secured with metal fasteners.

The panels are floating panels held in place with rubber spacing balls to absorb any expansion and contraction and keep the panel in place. All of our raised panels and frames are solid wood; flat panels are plywood.

European fully concealed, six-way adjustable hinges

Optional soft close door piston. (SC)

Drawer Construction

The drawer boxes are English dovetailed on all four corners, 1/4" plywood bottom panel is glued in place and blind nailed to create a strong square drawer box that will endure the test of time.

Drawer face is attached to the front of the box using four panhead screws.

Wall Cabinets

- Standard wall cabinets come in 12", 15", 18", 21", 24", 27", 30", 36" and 42" heights with a 12" or 15" depth.
- 12" 15" and 18" high wall cabinets have no interior shelves
- 21", 24", and 27" high wall cabinets have one adjustable shelf.
- 30" and 36" high cabinets have two adjustable shelves.
- 42" high cabinets have three adjustable shelves.
- Max. height for wall cabinets: 48"
- Smallest door size for Cathedral/ Arch doors is 9" w X 12" h
- Cabinets less than 12" wide have a solid door (raised, flat panel, cathedral and arch not available).

Vanity Cabinets

- Standard vanities are 31" high and 21" deep, have false drawer fronts, bottom shelf. Tall vanities are 34 1/2" high.
- Narrow vanities are 31" or 34 1/2" high and 18" deep, have false drawer fronts, one bottom shelf.
- Three drawer vanities are 31" or 34 1/2" high and 21" deep, have one 4" and two 6" drawers. (Hampshire is 21 3/4" deep because of base trim).
- Combination vanities are 31" or 34 1/2" high and 21" deep.
- Toe kick cutout: 4 1/2" high and 3" deep.

Base Cabinets

- Standard base cabinets are 34 1/2" high and 24" deep, have working drawers, one base shelf and one adjustable half-shelf.
- Sink bases have one base shelf and false drawer fronts.
- Sink fronts are fronts only, with a toe kick attached.
- Three-drawer base cabinets have one 4" and two 8" high drawers.
- Min. cabinet depth for drawers: 12"
- Cabinets less than 12" wide have a solid door (raised, flat panel, cathedral and arch not available).
- Toe kick cutout: 4 1/2" high and 3" deep.

Helpful Ordering Information

Ordering Wall Cabinets

The first letters of cabinet model numbers refer to the group of cabinet-type ("W" for wall).

- The numbers after the letters refer to the width of the cabinet. In the example below, the "24" indicates that the actual width of the cabinet is 24".

- The second set of numbers refers to the cabinet height. In the example, the "36" indicates that the actual height of the cabinet is 36 inches.

- If the cabinet has a non-standard depth (*standard depth is 12"*), the next two digits reflect the depth. In the example, the "15" indicates that the actual depth of the cabinet is 15 inches. If a cabinet is the standard 12" depth, this number is not required.

- The letter following the height or the depth option is used for the wood species. "P" is the letter code for Pine, "M" is the letter code for Maple, "K" is the letter code for Oak, "C" is the letter code for Cherry.

Wall Cabinet Order Number

Ordering Base & Vanity Cabinets

Letters at the beginning of cabinet model numbers, such as "B", refer to the group of cabinet-type ("B" for Base, "V" for vanity, "BLS" Base Lazy Susan, etc.)

- The numbers after the letters refer to the width of the cabinet.

- In the order number example below, the "27" indicates that the actual width of the cabinet is 27".

- The letter following the width is used for the wood species.

- "P" is the letter code for Pine, "M" is the letter code for Maple, "K" is the letter code for Oak, "C" is the letter code for Cherry.

Base & Vanity Order Number

Ordering Blind Cabinets

- For Blind Wall cabinets order 0"- 3" smaller than wall space as it can be pulled 0"-3" from the wall

- For Blind Base cabinets order 6"- 9" smaller than wall space as it can be pulled 6"-9" from the wall.
